

March 10, 2008

Dear Tom,

I would like to take a moment to thank you and your crew for a job well done. On behalf of Hohl Industrial, we would like to thank you for the work you did on our support girders. We know you faced multiple challenges, from time constraints to environmental issues (on-site, around the clock in freezing temperatures), but you were still able to get the on-site machining done on all (4) 50T girders.

Our company has no problem relying on you for "tough jobs." With your "can do attitude" I am sure we will be working together again in the future.

Thanks again,

Waylon Edmister
